

**FACT:** *The Washington Post reports the loss of an American Veteran to suicide every 65 minutes.*

# VETERANS, POST TRAUMATIC STRESS & MEDICAL CANNABIS

## **VETERANS POST TRAUMATIC STRESS & MEDICAL CANNABIS**

Veterans and their families are suffering, the Veterans Health Administration (VHA) are overwhelmed, and the established treatments for Post Traumatic Stress related disorders (PTSD) are not sufficiently effective.

To address this problem, Enigami Systems, Inc., through its subsidiary, Enigami Medical Cannabis, LLC, has donated over \$300,000.00 in technology services to research this issue. Funding is welcome and still needed for administrative costs.

**The largest Medical Cannabis research study ever launched!**  
This study is open to 10,000 participants.
